STUDENT ANXIETIES

‘I know I like tech... but what if I choose the wrong course?’

‘Everyone else seems to know... why am I so lost?’

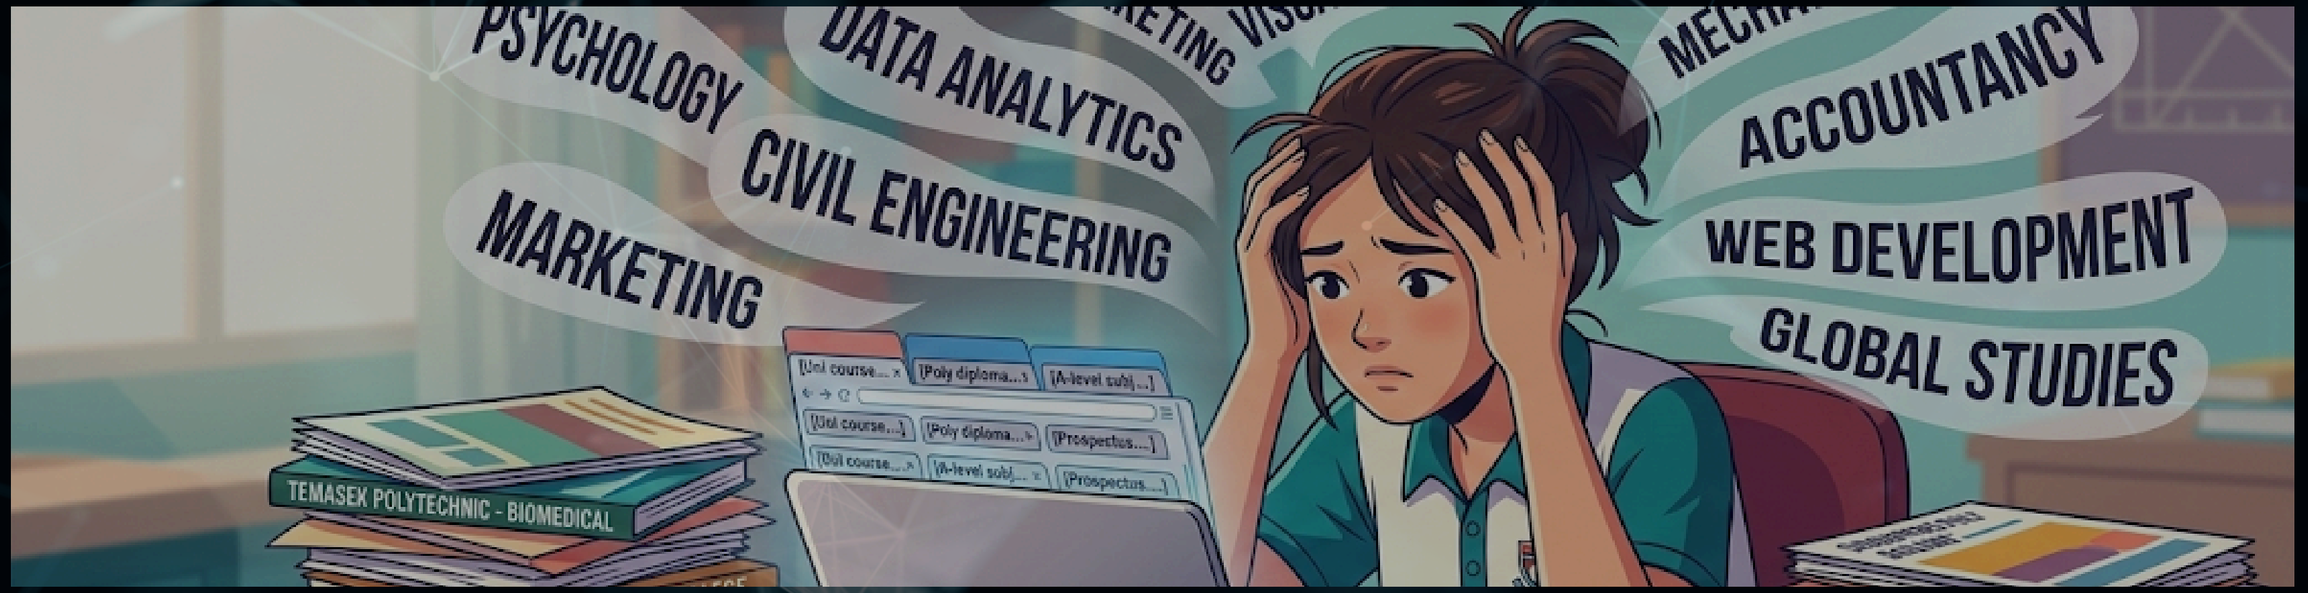

What if this one decision affects my entire future?

Idarethon

The Ultimate Digital Twin

Problem Statement

How might we help students who are unsure about their course choice during the transition to polytechnic, so they remain engaged and confident in their learning journey?

Competitor Analysis

Ministry of Education
SINGAPORE

MOE Course Finder

- passive filtering tool
- does not tell a student why a course fits them

MOE ECG

- Scalability and availability issues

ChatGPT

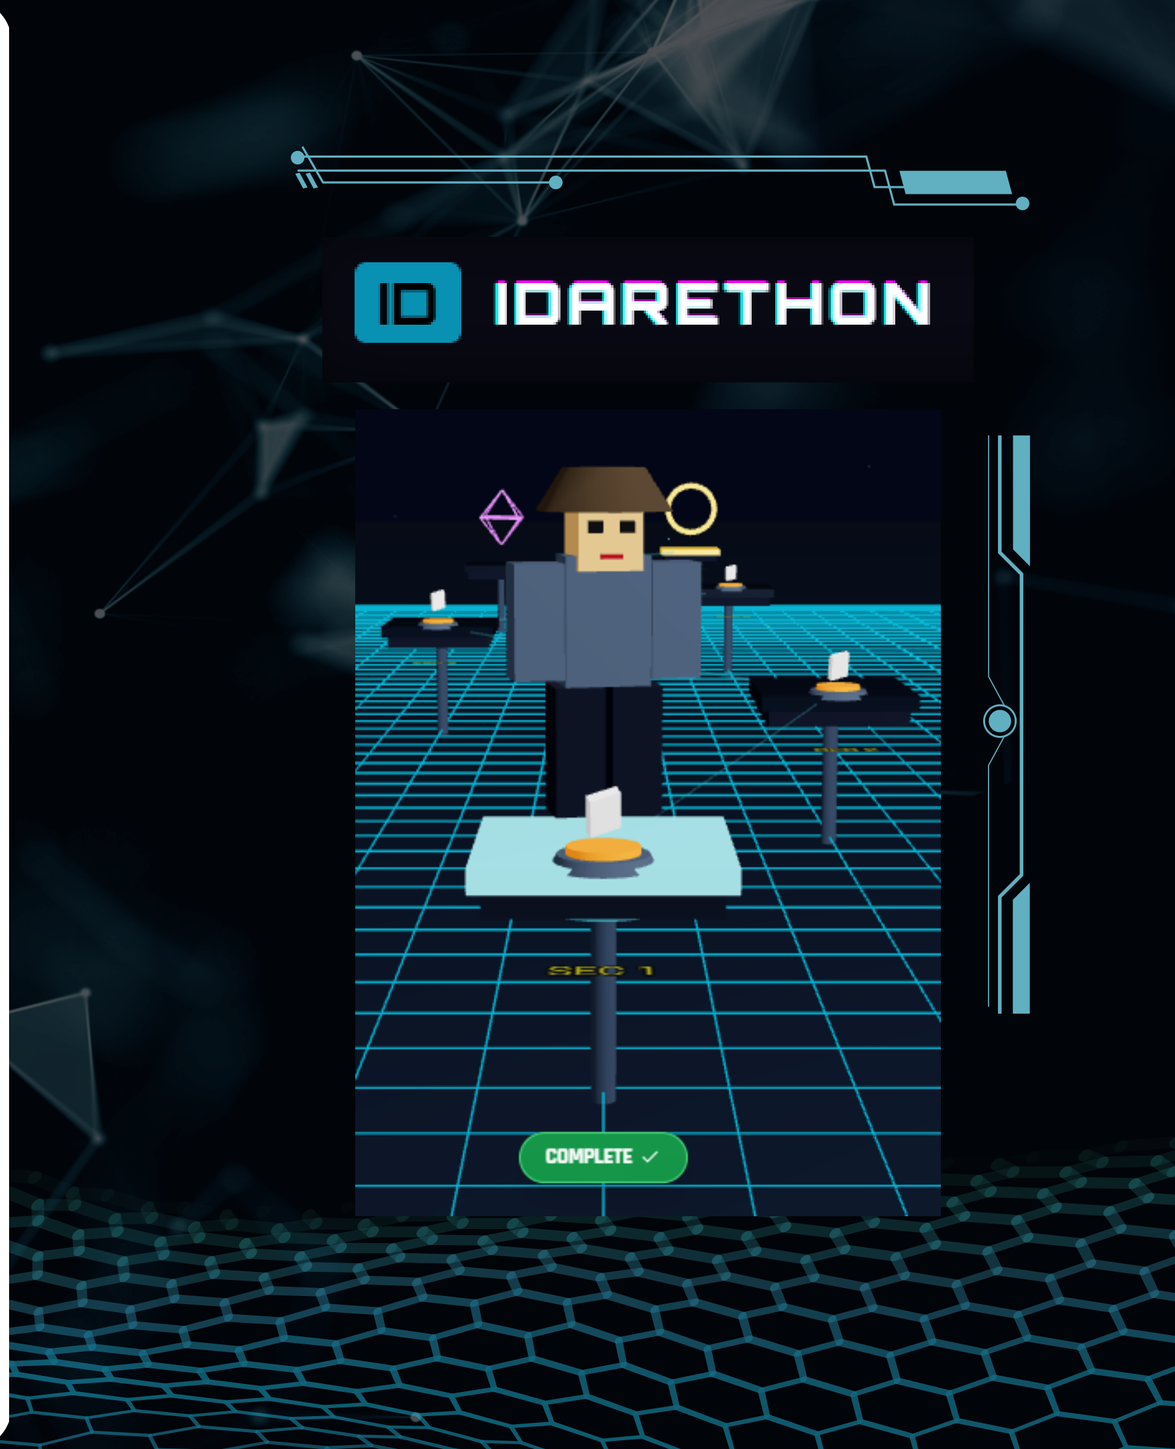

- vague or hallucinated pathways

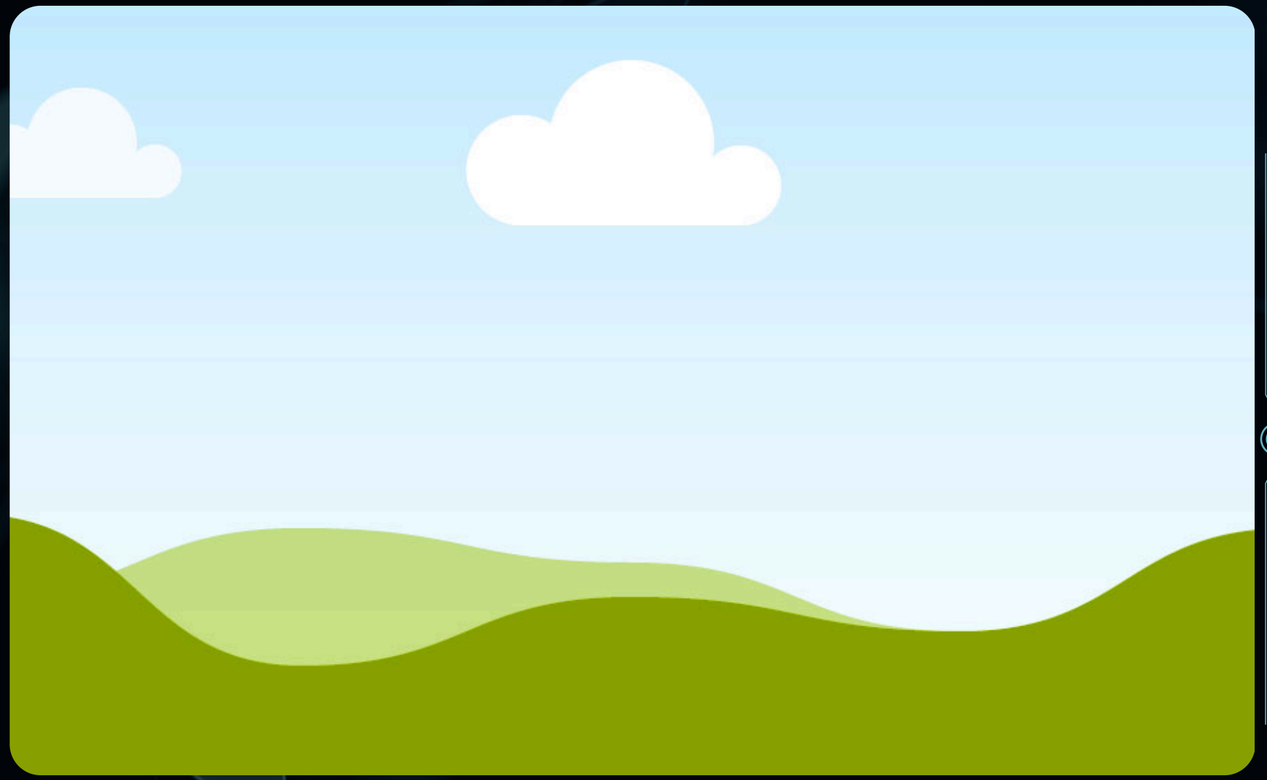

SKILLSfuture SG

- Text-based articles
- Does not dynamically adjust recommendations based on a student's school exam grades or interests

Unique Value Proposition (UVP)

- Dynamic recommendations
- Contextual AI
- Gamified Visuals

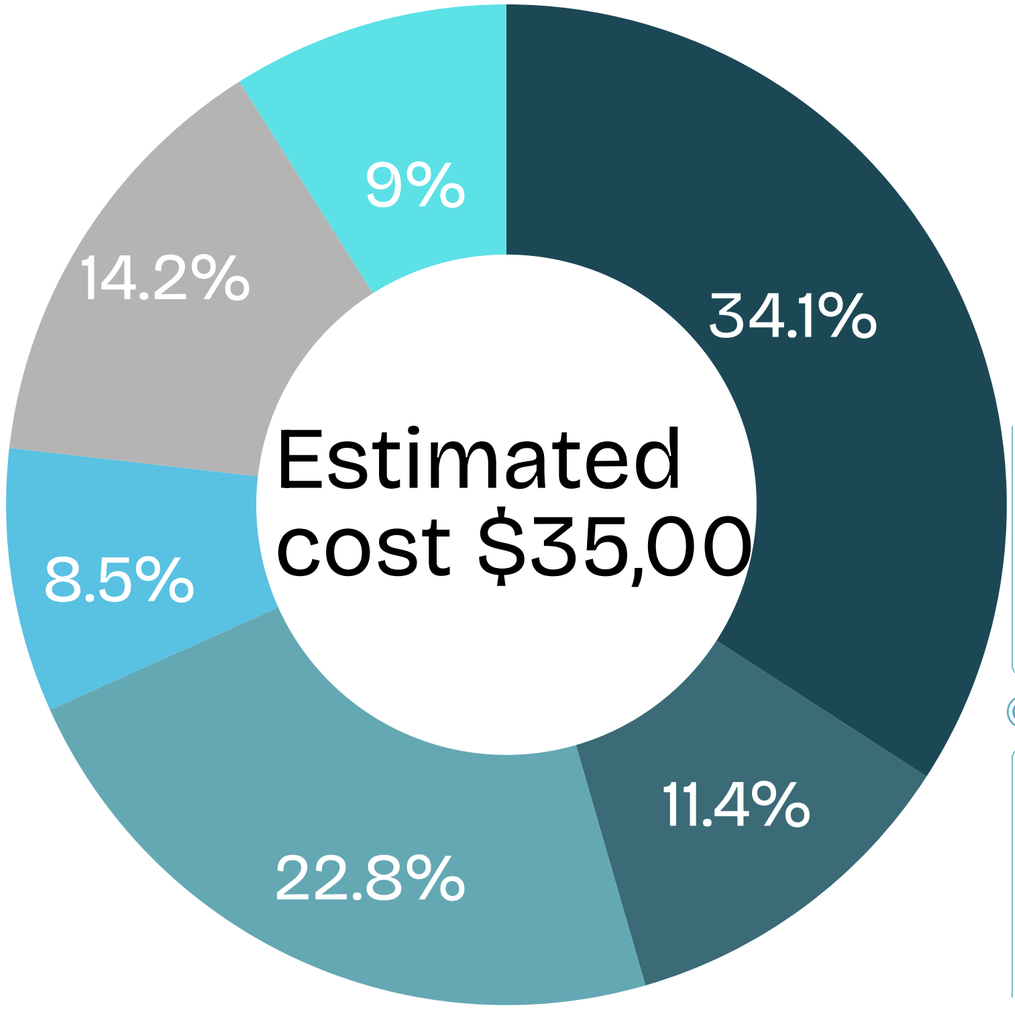

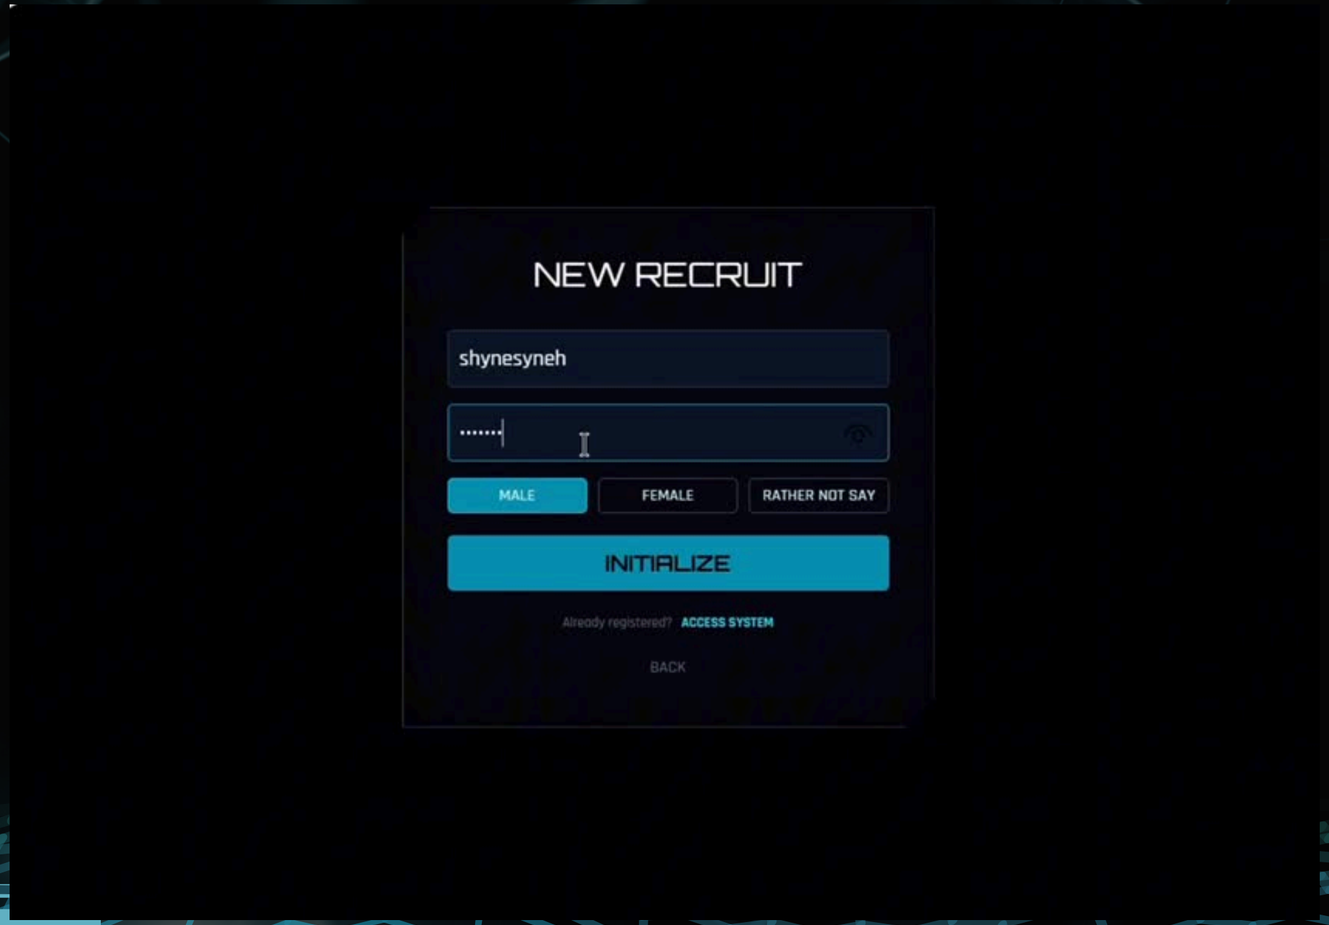

Financial Projection

Development period : 4 months
Budget Breakdown

- Platform Development = $100
- UI/UX Design = $4,000
- AI & Data Integration = $8,000
- Testing & QA = $3,000
- Marketing & Outreach = $5,000
- Miscellaneous = $3,000
